 -- DATA NOT AVAILABLE

On March 11, 1992, runoff from heavy rains caused severe ice jams and flooding in central Vermont. Five counties were declared disaster areas by President Bush on March 18, 1992. The most pronounced damage was to the City of Montpelier, Vermont's State Capital, due to ice-jamming on the Winooski River in the city. This caused the main stem and the North Branch Winooski River to overflow their banks, flooding much of the downtown area. FEMA Public Assistance for storm damage state wide is estimated to be approximately 1.5 million dollars.
